I recently requested Krisna Jenkins to assist me with a legal matter. Based on the circumstances of the case, I expected it to be a lengthy process.

She pursued the claim vigilantly from the moment I placed it in her care. Krisna was professional, approachable and a pleasure to deal with throughout the whole process.

What I found particularly unique about her was her patience with me as her client that does not necessarily know the legal process. She took the time to explain the legalities and steps she took to me with compassion and understanding.

I was pleasantly surprised when she contacted me a mere month later with the news that the person who was responsible for my loss agreed to negotiate the terms of compensation.

I highly recommend placing any claim in Krisna's hands.
